Dennis:

I have just uploaded a Cover Letter exhibit to address your questions. Please review and advise.

Thank you.

Kathy

Hi Kathy

Quick question –

You said that since no changes were made no SAR is needed. How did you determine that the 16K0F3E was not worse than the **13K5F1E or the 13K5F1D???**

What justification is there for this? As soon as I get this I can issue the grant.
thanks

Dennis Ward
