RE: FCC ID: BV8VTAC800_ATCB002435

Attention: Rick McMurray / Kathy Grzovic

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the manual provides tables that indicate the device can be used in uncontrolled environments (see table 1-1 page 6 of the installation manual). The warning label states the device is only for controlled environments. Please also note that the safe distances mentioned in the MPE report are not the same as specified in the installation manual. Please explain why.

Response: The device is for use in controlled environments, not uncontrolled environments. Please refer to the revised installation manual and operator's manual, uploaded with this response, for consistent environment references and safe distances.

2. Please provide the test report for the application package. The report provided under Test Report, is a duplicate of the MPE report.

Response: The report was previously uploaded immediately.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued. Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the sender.
