MODEL DIFFERENCE LETTER, IC: 3724B-DH7BT and IC:3724B-DH7

This letter is to explain the differences between the different variants of Ascom DH7 handsets with the following model numbers:

Model	Description	IC
DH7-AAAA	Ascom d63 Talker	3724B-DH7BT
DH7-ABAA	Ascom d63 Messenger, Black	3724B-DH7BT
DH7-ABAB	Ascom d63 Messenger, White	3724B-DH7BT
DH7-ADAA	Ascom d63 Protector, Black	3724B-DH7BT
DH7-ADAB	Ascom d63 Protector, White	3724B-DH7BT
DH7-ANAA	Ascom d63 Talker no BT	3724B-DH7
DH7-CBAA	DH7 BT Avaya	3724B-DH7BT
DH7-CDAA	DH7 Protector Black Avaya	3724B-DH7BT
DH7-DAAA	DH7 Standard Mitel	3724B-DH7BT
DH7-DBAA	DH7 BT Mitel	3724B-DH7BT
DH7-DDAA	DH7 Protector Black Mitel	3724B-DH7BT

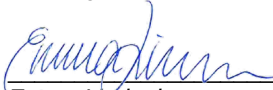

For Brand: • The branding print on the plastic is different.

For Features: 1. DH7-xAxx will have the components for Bluetooth but not IR receiver mounted on the PCB.
Mini messaging function, 12 characters
2. DH7-xBxx will have the components for Bluetooth but not IR-receiver mounted on the PCB. Sending/receiving messages (SMS)
3. DH7-xDxx will have the components for Bluetooth and IR receiver mounted on the PCB
4. DH7-xNxx will not have the components for Bluetooth or IR receiver mounted on the PCB.

All DH7 handsets will use the same PCB, FPC's and other electrical components i.e. radio, antennas, loudspeaker, receiver, microphone, battery, vibrator and display.

All plastic parts are the same between the versions.

Best regards,

Emma Lindquist
