

**TO WHOM SO EVER IT MAY CONCERN**

Gothenburg, 5<sup>th</sup> May 2014

**MODEL DIFFERENCE LETTER, FCC ID: BXZNITX**

This letter is to explain the differences between the different variants NITX with the following model numbers:

**NITX-AAB  
NITX-BAB  
NITX-BBB**

All NITX variants will use the same PCB and the same electrical components. All plastic parts are the same between the variants. The only difference between the item numbers is the software.

Very truly yours,

*Jan Ringener*  
Global Product Manager, Patient Systems
