

October 2, 2009

Nemko Canada Inc
303 River Road
Ottawa, Ontario, Canada
K1V 1H2

Attn: Director of Certification
Ref: FCC ID BYMCOM400

The COM400 was specifically designed to reject frequencies below 300 Hz in order to keep low frequency noise out of the radio. The operating frequency range is 300 Hz to 3500 Hz. This is so that it will be consistent with Telecommunications equipment.
