Dear Sir or Madam,

Enclosed is a certification submission for the SEA 157 VHF FM marine radiotelephone with DSC. In addition to the electronic form 731, the fee and voucher (sent separately), and this letter the following file attachments are included:

FILE	DESCRIPTION
ta1labeldwg.pdf	Drawing showing FCC ID label and its placement on rear panel
ta2gwfstatement.pdf	Signed statement of test supervisor (G. W. Forgey)
ta2mmjstatement.pdf	Signed statement of project engineer (Mark M. Johnson) concerning DSC compliance.
ta3extphotos.pdf	External photos (front and rear) of equipment
ta4blkdiag.pdf	Functional block diagram of equipment
ta5_1s157rx.pdf	Schematic diagram of receiver module
ta5_2s157main.pdf	Schematic diagram of main board
ta5_3s157vco.pdf	Schematic diagram of VCO module
ta6testrpt.pdf	Test report containing general information, technical description of the equipment and a description of the procedures, setups, requirements, and results of all required technical tests.
ta8man.pdf	Preliminary user's manual containing equipment specifications, operational instructions, theory of operation, and tuneup procedures.
ta9intphotos.pdf	Internal photos of equipment
ta10bom.pdf	Parts list for the three printed circuit boards.

I appreciate your attention to this certification request. Should you require further information regarding this application, please contact me at (425)-771-2182. For your greater convenience the SEA Inc. WATS line number is 1-800-426-1330.

Sincerely,

G. William Forgey
Vice President, Engineering
SEA, Inc. of Delaware

FCC IDENTIFIER: BZ6SEA157
