Gentlemen:

This is a letter requesting confidentiality pursuant to 47 CFR 0.457(d) of the FCC Rules. This request is made due to the competitive nature of the business we are engaged in. We consider all technical information about our products to be "Company Confidential". Any current or prospective competitor would welcome a "free pass" to the design of our transmitter, very much to our detriment. We wish this not to happen, and therefore request that the following exhibits remain confidential and not be posted on a web site for all to see:

- 1) Schematic Diagrams
- 2) Detailed Block Diagrams
- 3) Detailed Operating Description

Questions concerning this matter should be directed to the undersigned.

Sincerely,

A handwritten signature in black ink, appearing to read 'John Dillon', written in a cursive style.

John Dillon
Owner
