

Notes:

1. This graphic is a lithographic small label black printing, pre-die cut process, silver substrate base, hollowed silver decal.
2. Self-adhesive tape, substrate is topped with a thin adhered film, there is a clear ink screen printed on the serial no. area.
3. Adhesion(AD): >4B
4. Chemical Resistance (CR): No color and gloss change after 25 double rubs at 0.5 kg force, wetted with three types of Naphtha, Citrus BioSolvent, Alconox 1% fluid.
5. TR test : 66° C for 96 hours, no change in size or damage/cracking
6. Low temperature environment test: 22 hrs, -18° C should not result in different appearance.
