Dear Dan,

Subject: **TCB Services on a TBCH2A Digital Base Station Transceiver**

As per Elite Quotation EEE1602050-1 please carry out FCC (C2PC) and Industry Canada (Reassessment) to add Analogue Voice to the existing Grant / Certification for our Digital Base Station transceiver:

- FCC ID: CASTBCH2A
- IC: 737A-TBCH2A

I've noted on the existing FCC Grant only Part 90 is stated, we were hoping this could be captured for the H2 sub-band with this Class 2 Permissive Change, adding Parts 22 and 74 at the same time? Please advise if you need anything additional.

I will upload the files that are required by the FCC and Industry Canada, to you by email.

Yours sincerely
