3. Product outlook

Home Menu Return

4. Startup and shut down

- **Boot:** Press and hold the power button to turn on the device:

The system is now been turned on and the Android system is being loaded:

After the startup sequence, the basic Android default home interface is shown.

- **Shutdown:** Press the power button, a pop-up appears, select “Shut Down” to shut down the tablet PC:

- **Sleep:** Short press the power button to allow the tablet to go in hibernation (power saving) mod. Short press the power button again and the tablet will be re-activated.

5. Desktop

The default desktop contains the following interactive objects: Status Bar (top), Quick navigation buttons (right side). Also, there may be some pre-installed shortcut icons and/or widgets on the desktop itself.

The status bar shows relevant system information such as network, battery status and the system time.

Press the App drawer button (dotted button in the middle of the Quick Navigation menu) to open your App drawer. This displays all the installed applications on the device.

The world icon at the top of the quick navigation menu opens the web browser. The icon at the bottom links directly to the Android settings menu.

6. Buttons

The tablets' buttons have the following functions:

Power key: Turn on, shut down or hibernate on/off.

Menu button: Open the menu options (if available)/ Volume + (hold button)

Home button: Return to the home screen/ Volume – (hold button)

Return: Go back to the previous screen

7. The App drawer

By pushing the App drawer button on the desktop you will enter the Android App drawer. Here you will find all installed applications of this device. The house icon allows you to return to the desktop.

8. System Settings

The "Settings" icon opens the system settings interface, as shown below:

WIFI Wireless Connection:

In the "Settings" menu, click on "Wireless & networks" to open the WiFi settings interface. Check the option "WIFI" to quickly enable or disable the WIFI feature. In the "Wi-Fi settings" you can view and edit the wireless network of your choice.

The "Network Notification" option enables the tablet to pop up a notification when a new wireless network is available. Under the "Wi-Fi networks" a list of the available networks will appear. Select the network of choice and enter the appropriate password if needed.

9. Install, uninstall & run applications

You can install applications using different methods such as 'App market' applications or special .APK apps. This manual instructs how to manually install Android installation files (.APK) through the "Manager".

First make sure that in the menu “Settings” / “Applications” the option “Unknown sources” is checked.

For this action, the .apk files needs to be first copied to either the micro SD card or the tablet's internal NAND memory. Through the “File Manager” you can select the correct .APK file to start the installation.

- Uninstall applications:**

Select "Settings" / "Application" / "Management Applications" and select the appropriate application to view the programs' information. Here you can select uninstall and other operations.

10. External devices

10.1 USB connection

To access the contents of the inserted micro SD card or internal storage of the tablet, connect the device through a mini USB cable to your computer. In the status bar the option "USB connected" will appear. Select this and press the "Turn on USB storage" the micro SD and internal storage will be mounted as an external USB drive in your computer.

11. Frequently Asked Questions Treatment

1. What is Android?

A: Android is Google's mobile operating system based on Linux. It is used on numerous mobile phones, tablets and other mobile devices.

2. What is APK?

A: APK is the file extension of Android installation packages.

3. How to obtain the APK?

A: You can download through one the many Android App download websites (i.e. www.androidpit.com, www.slide.me etc). Often you are able to download and install a special market app just by visiting their website on your tablet.

4. Which Android version is used on this tablet?

A: This device uses Android 2.3 and features built-in hardware 3D acceleration to run almost all applications available.

5. Can the tablet charge through USB?

A: yes, however it will charge quite slow due to the limited power the USB port (500mAh) can supply. The charger can supply up to 2A and will charge much faster.

Pictures for reference only, product appearance, functionality are subject to change without notice.

12. Statement and Declaration

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Declaration of Conformity

Hereby, VG Media Co., Ltd., declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.
