Columbia, MD 21046

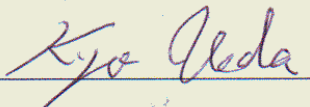

Re: Toshiba Corporation, Product Safety Group
FCC ID CJ6CET0200MT
Form 731 Confirmation No. EA 953081

Dear Mr. Fabina:

Toshiba Corporation, Product Safety Group ("Toshiba") requests that the Commission's grant of equipment authorization for the above-referenced Hand-held Computer and Cellular Telephone ("Thera product") be corrected and reissued to specify revised production tune up output power target ranges and corresponding ERP and EIRP output power levels in CDMA and PCS mode, respectively, as set forth in Enclosures A and B submitted with this letter. In all other respects, the Thera product is unchanged.

Expedited consideration is requested so that the equipment authorization for the Thera product will be corrected and updated to reflect the foregoing parameters at the earliest possible opportunity.

Very truly yours,

Kyo Ueda
Senior Manager
PDA Development & Design Dept.
Mobile Communications Development Center,
Ome Complex
