

Correspondence reference Number We will answer for 3 items concerning 17854 question.

Answer 1.

We delete the descriptions designated by you.

Answer2.

We re-define RF Emission guideline as RF exposure guideline.

We add page a file "Revise Consumer Information on SAR" where the above two items were modified.

Answer3.

We made a mistake in description.

The value 26.1dBm +/-0.5dB ERP of Power ATT. 0dB described in Subjection 2.1033(c)(6)"Specific Operating Power Range" is a wrong value.

The correct value is 25.8 dBm+/-0.5dB ERP.

We add page a file "Revise Page 1 of EXHIBIT Operational Description" where the description mistake was modified.
