To whom it may concern,

Please accept the attached revised test reports and revised document of modular characteristics. In the original submission we inadvertently left out data that supports the actual desired modular characteristics.

The revised report adds stand-alone radiated test data. The revised modular characteristics document specifies that the module was also tested in a stand-alone configuration.

Sincerely Yours,

A handwritten signature in black ink, appearing to read "MH", is positioned above a horizontal line. A vertical line extends upwards from the center of the horizontal line.
