Re: Technical Justification Letter Pertaining to FCC ID: CJ6UPA3722WL, IC: 248H-DPA3722W

Gentlemen:

This is to confirm that Toshiba America Information Systems, Inc. will be installing the identical approved 802.11bgn 1x1 PCIe Minicard Transceiver, Model Name: PA3722U-1MPC, in a different portable host, model number NB300/NB305. SAR evaluation has been conducted for this new portable host and are submitting for a Class II Permissive Change filing. There is no change on the module hardware and the antennas used in this portable host are the same antenna type as the previous with less gain by comparing with the certified antennas included in the original modular approval, and output power remains unchanged. Therefore EMC tests are not performed.

If you have any questions regarding this application, please feel free to contact Mr. Peter Leone of Toshiba America Information System Inc., (949-587-6473).

Sincerely yours,

A handwritten signature in black ink, appearing to read "Peter Leone".
