This device can be easily connected with any audio or video devices, smartphones, etc. via Bluetooth® or audio cable connections for your traveling or daily needs.

2. Battery Precautions

The device can be powered by a built-in rechargeable lithium battery. Please charge the battery for at least 8 hours before your first use of the device.

- Keep batteries out of reach of small children. If swallowed, consult a physician immediately.
- Leaving the battery in hot or cold places, such as in a closed car in summer or winter conditions, will reduce the capacity and lifetime of the battery. Always try to keep the battery between 15°C and 25°C (59°F and 77°F). A device with a hot or cold battery may not work temporarily, even when the battery is fully charged.
