7435 Oakland Mills Road  
Columbia, MD 21046

Ref: FCC ID: CLNSS4451

Dear Sirs:

**MFOURTEL MEXICO S.A. DE C.V.** requests acceptance of the labeling proposal described below for mobile phone bearing FCC identifier CLNSS4451.

The subject cell phone are compact handheld models as shown in figure 1, authorized under 47CFR Part 22 &24&27 for smart mobile services.

Figure 1.

Because the majority of the cell phone housing is composed of display, speaker, operating controls and a non-removable battery pack, there is extremely limited space available to attach the required label carrying the FCC identifier. Attaching the label to the battery pack is acceptable because the battery pack is a non-removable item. For this reason, MFOURTEL MEXICO S.A. DE C.V. proposes placing the label carrying the FCC identifier inside the battery compartment as shown in figure 2.

Figure 2.

The consumer packaging for these models includes the battery pack as one item. As such, the FCC identifier will be readily visible to the user before the back housing is installed

In this location, the label will also be protected from physical abuse and remain readable for the anticipated life of the device.

The consumer packaging for these models is a "gift box" which does not allow the transceiver to be seen at time of purchase. In order to meet the requirements of 47CFR Part 2.925 (d), Haier Telecom (Qingdao) Co.,Ltd will add the FCC identifier " CLNSS4451" to the outside of the consumer "gift box" packaging.

Thank you for your attention to this matter.
