Overview

This application is for Spacelabs Medical, Inc. medical monitors models 91367, 91369 and 91370 with an 802.11A/B/G radio transceiver installed. The Spacelabs part number 010-1471-00 assembly consists of a SparkLAN WMIA-166AGI radio transceiver min-PCU module and two multi-band PCB-Mount antennas. Antennas are factory installed and the output power of the radio is controlled by software drivers, which are set at the factory during manufacture.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

Short term confidentiality requested.

A letter listing the applicable modular requirements was submitted.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
