Date: Sep. 24, 2008

Notice for the file update:

Due to the internal process error, we have mistakenly stated in the report that the device complies with FCC Class B peripheral device and had the DoC log on the label. The product was actually tested for Class A peripheral device (subject to verification not DoC) and is intended only for non-residential environment. Accordingly, we have revised the test report, manual and Label exhibit. Thank you for your attention.

Sincerely yours,

Ken Liu / Deputy Manager
