CAUTION

The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference.
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Notes:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

INSTRUCTIONS

- Please install the batteries into the car, put 3pcs of "AA" batteries into the chassis battery box, then close the cover.
- Put the antenna into the controller socket, open the lid and insert the 9V battery according to its polarity shown below, then close the lid.
- Push the switch to the "ON" position on both the car and the controller, and the instruction light will be on.
- Adjust the direction adjustment switch to control the car running in a straightline.

CAUTION

1. Please change the batteries with new ones once they are exhausted.
2. Do not mix new and old batteries together.
3. Please remove batteries if the car will not be used for a longer period of time.
4. The supply terminals are not to be short-circuited.
5. The batteries are to be changed under adult supervision.
6. The battery should never be put near fire or any source of heat, nor should it be thrown into fire or left in direct sunlight.
7. Exhausted batteries are to be removed from the toy.
8. Non-rechargeable batteries are not to be recharged.
9. Please dispose the worn-out batteries according to the local government's regulation, and reclaim it as possible as you can.
10. Don't dispose the batteries as daily trash.
