

PCB CODE:
G09C

Barcode label with the following information:
G09605P2
Rev/Ver 1100
0007

Small electronic module with a chip and surface components, mounted on a green PCB.

White multi-pin connector with a black plastic housing, mounted on the PCB.

Small circular component, possibly a microphone or speaker, with a gold-colored rim.

Large central module with a yellow border, containing several integrated circuits. Labels on the chips include:
MC1MX655AVH03AC
XAA 1544
2N81E
TAIW DRAAXGN
6GK17
D9PSK

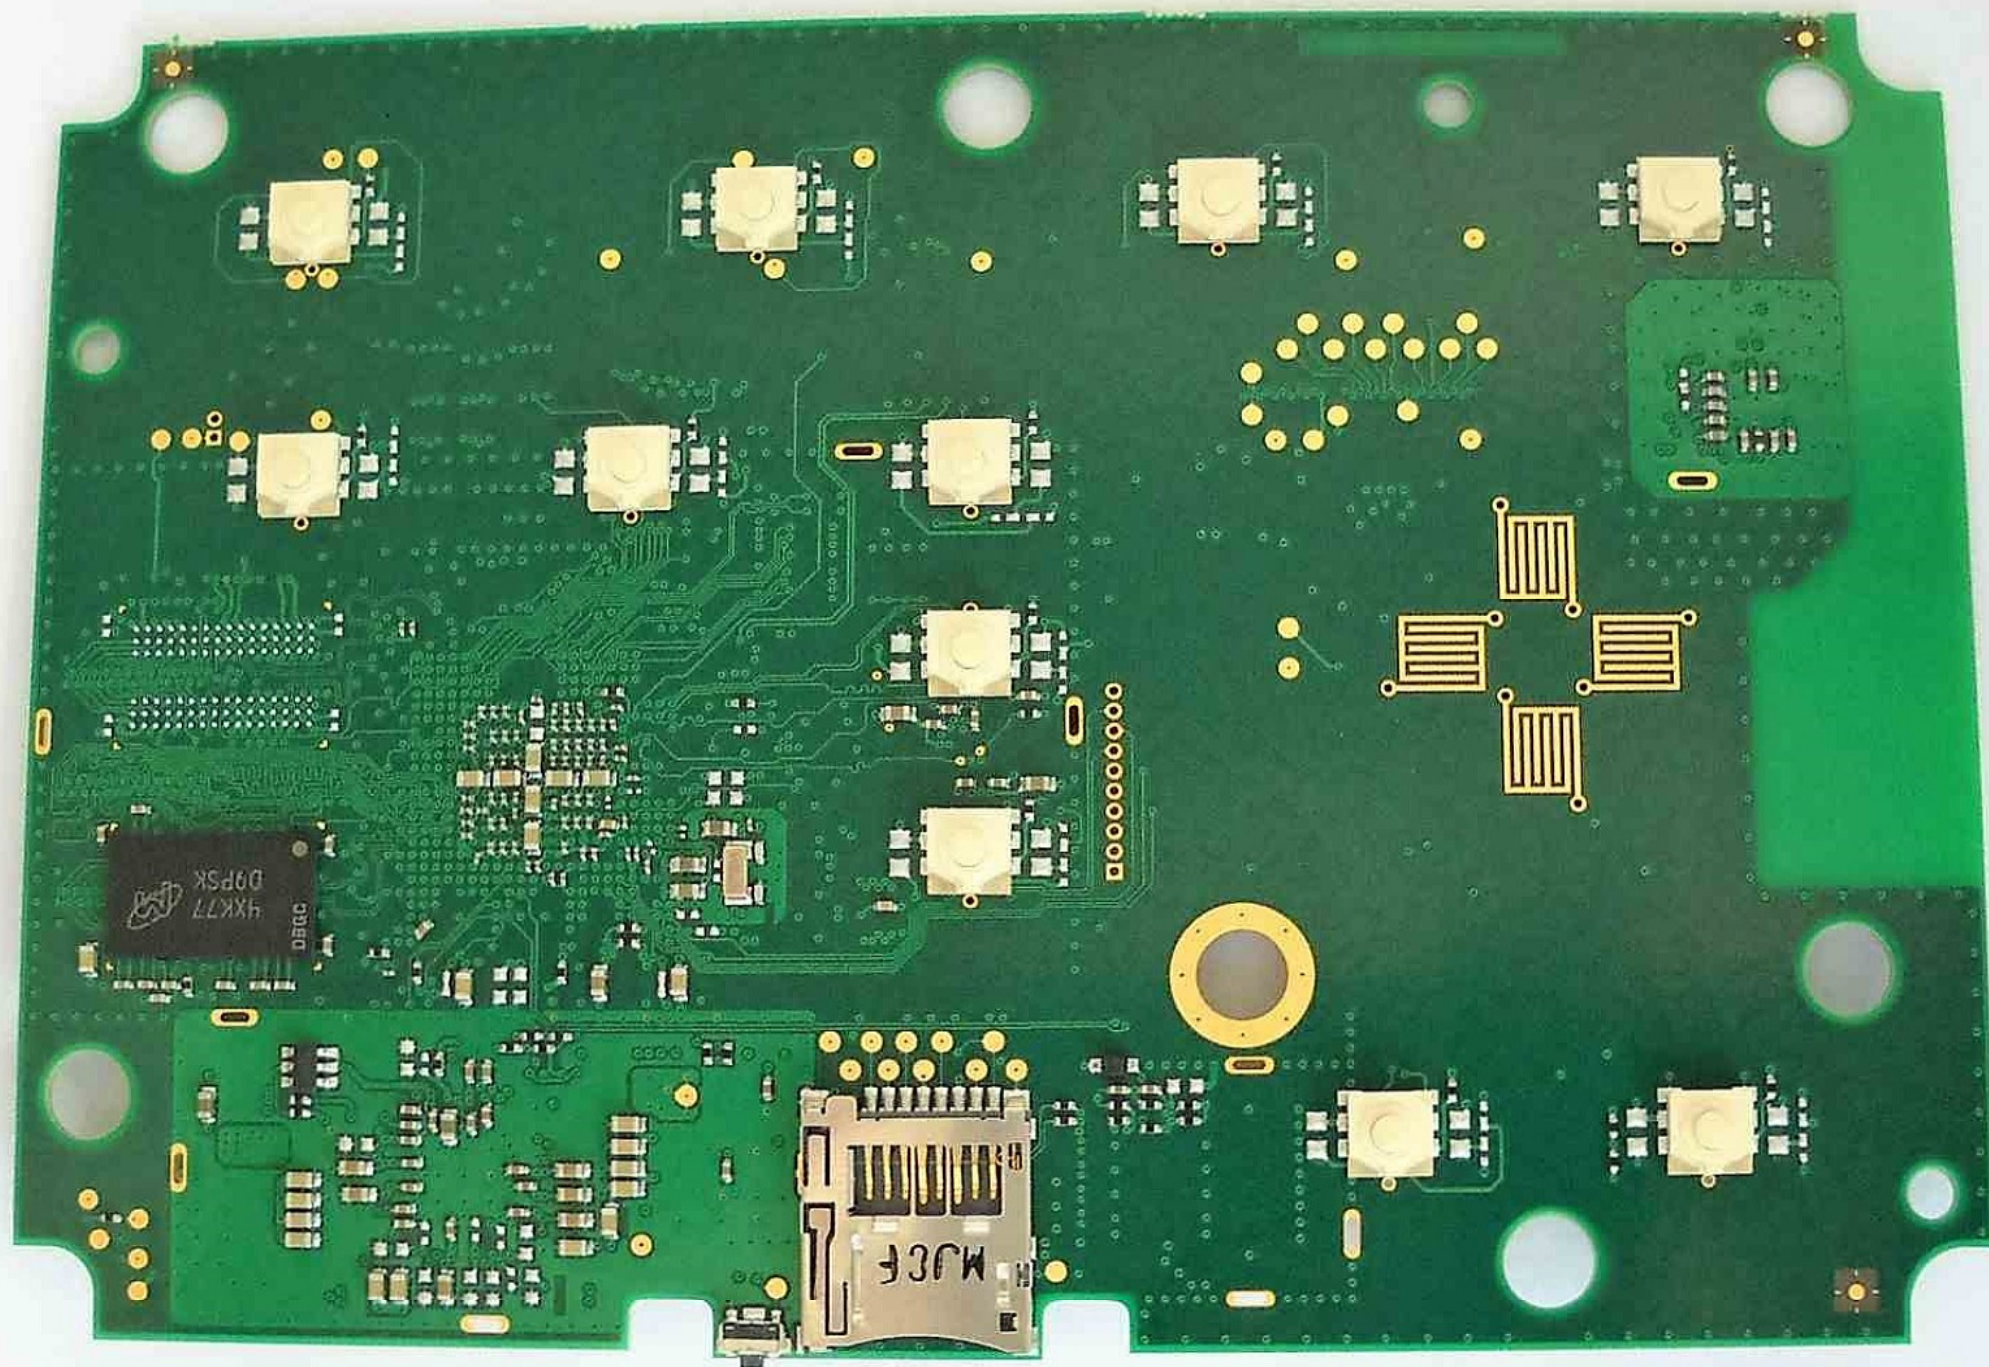

Small electronic component with a black package and gold pins, labeled with '08-15A' and '4678'.

Small circular component, similar to the one in the center, with a gold-colored rim.

Yellow multi-pin connector with a black plastic housing, mounted on the PCB.

Small electronic module with two circular components labeled '102D' and '222', and a central chip.

Yellow multi-pin connector with a black plastic housing, mounted on the PCB.
