

# Wireless Video Intercom **VISION+** User Manual

## ATTENTION:

Thank you for purchasing the VISION+ wireless video intercom. Due to the nature of radio frequency transmission technology, the transmission range, stability of images, video and sound of the VISION+ can not be guaranteed at all times. Performance of this product depends on the environment where the product is being used. Please carefully read all included documents and test for feasibility before applying any damages to the installation environment. Thank documents safe for future reference.

| VISION+ User Manual                                               |                                                   |
|-------------------------------------------------------------------|---------------------------------------------------|
| 1. What you can do with VISION+                                   | 1-1. Basic features of VISION+                    |
| 1.2. Expanding VISION+ with an optional unit                      |                                                   |
| 2. Overview of VISION+ devices                                    | 2-1. Handheld Monitor Unit (VH-HU)                |
| 2-2. Door Camera Unit (VH-DCU)                                    | 2-3. Gateway Chime Unit (VH-GU)                   |
| 3. Before Using VISION+                                           | 3-1. Getting ready with VISION+ system            |
| 3-2. How to turn ON/OFF                                           | 3-3. Date and Time Setting                        |
| 3-4. Changing Volumes                                             | 3-5. Changing Brightness on Handheld Monitor Unit |
| 4. How to Use Basic Features                                      | 4-1. Answering to a Door Camera Unit              |
| 4-2. Using SNAP function to capture an image                      | 4-3. Operating OPEN DOOR function                 |
| 4-4. Ending ANSWER / BROWSING MODE (Returning to IDLE MODE)       |                                                   |
| 5. Auto Recording Images                                          | 5-1. How "Auto Recording" works                   |
| 5-2. Changing number of images to be captured in "Auto Recording" | 5-3. Note about timings for capturing images      |
| 6. Handling Stored Images                                         | 6-1. Viewing Images                               |
| 6-2. Deleting Stored Images                                       | 6-3. Viewing Images from Your PC                  |
| 7. Other Settings                                                 | 7-1. Talk Switching Mode Setting                  |
| 8. Frequently Asked Questions                                     |                                                   |
| 9. Trouble Shooting                                               |                                                   |

| 1. What you can do with VISION+                                   |                                              |
|-------------------------------------------------------------------|----------------------------------------------|
| 1-1. Basic features of VISION+                                    | Knowing who is at your door                  |
