Gentleman:

In accordance with the 0.459 CRF47 FCC Rules, GRE America requests confidentiality for the *Block Diagram/ Schematics/Theory of Operation* of the attached test reports.

These documents contain detailed system and equipment description and related information about the product, which we consider to be proprietary, confidential, and a custom design and otherwise, would not be released to the public. Since this design is a basis from which future technological products will evolve, GRE America feels that this information will be of benefit to its competitors, and that the disclosure of the information in these documents would give our competitors an unfair advantage in the markets.

Sincerely,

Teru Takahashi
President
