## Modular Approval Letter

To whom it may concern,

The 802.11b/g Wifi module EB1-T002-TLD, FCC ID DXAAWiFiAP is seeking FCC authorization as a module transceiver. The EUT meets the requirement for modular approval as details in FCC Public Notice DA 00-1407 'Part 15 Unlicensed Modular Transmitter Approval'.

Compliance to each of the requirements is described below:-

	Modular Approval Requirements	Compliance
1	The modular transceiver must have its own RF shielding.	Yes
2	The Modular transceiver must have buffered modulation/data inputs	Yes
3	The modular transceiver must have its own power supply regulator	Yes
4	The modular transceiver must comply with the antenna requirement of section 15.203 and 15.204(c).	Yes
5	The modular transceiver must be tested in stand-alone configuration	Yes
6	The modular transceiver must be labeled with its own FCC ID number	Yes
7	The Modular transceiver must comply with any specific rule or operating requirements and the manufacturer must provide adequate instruction along with the module to explain any such requirements.	Yes
8	The modular transceiver must comply with any applicable RF exposure requirement.	Yes

Sincerely Yours,

Joe Zhang  
VP of Engineering
