

## EUT Information

### EUT Description

The type of equipment tested was a pre-production unit containing the identical schematic, PCB layout, and antenna design as will be used during production. No modifications were made during testing for FCC compliance.

### EUT Firmware

| Component                      | Description                           | Part Number             | Revision |
|--------------------------------|---------------------------------------|-------------------------|----------|
| Mobile<br>Bluetooth<br>Headset | FIRMWARE, Bluetooth HEADSET, LogiHS01 | SWC-<br>745058-<br>0000 | A0       |
|                                |                                       |                         |          |
|                                |                                       |                         |          |
