

Declaration per KDB 996369 D02 V01 requirements

KDB 996369 D02 V01 discusses (Q11) requirements to be met by a module that seeks for certification with requirement that host device must use micro strip as antenna. This declaration explains how those requirements are met by this module.

1. This module can be used only within Osram i.e., it can not be sold to third parties.
2. Strict guideline for micro strip design are provided in *Technical_Description_Ver1.pdf* section 7. Approved antenna is also presented in this section. Micro strip to use as antenna in host board is also shown in an example with gerber files.
3. Test procedure to verify proper intergration of module onto a host board with micro strip as antenna is detailed in *Technical_Description_Ver1.pdf* section 8.
4. Similarly test procedure to verify during production of host board is spelt out in *Technical_Description_Ver1.pdf* section 9.
