

Safety Instructions Regarding the Disconnection of Power

Caution: The power plug is the main isolation device! Other switches on the equipment are only functional switches and are not suitable for isolating the equipment from the power source.

Attention: Le débranchement de la fiche secteur est le seul moyen de mettre l'appareil hors tension. Les interrupteurs sur l'appareil ne sont que des interrupteurs de fonctionnement: ils ne mettent pas l'appareil hors tension.

Compliance and Conformity

Hereby, KYOCERA Document Solutions Inc. declares that the radio equipment type TASKalfa 2554ci, TASKalfa 3554ci, TASKalfa 4054ci, TASKalfa 5054ci, TASKalfa 6054ci and TASKalfa 7054ci are in compliance with Directive 2014/53/EU.

The full text of the EU declaration of conformity is available at the following internet address:

<https://www.kyoceradocumentsolutions.eu/index/service/dlc.html>

| Module name, Option | Software Ver. | Frequency band in which the radio equipment operates: | Maximum radio-frequency power transmitted in the frequency band in which the radio equipment operates: |
|-------------------------|---------------|---|--|
| IB-51 (option) | 2.2.6 | 2.4GHz | 100mW |
| IB-37 (option) | 1.0 | 2.4GHz | 100mW |
| | | 5GHz | 50mW - 1W |
| IB-38 (option) | 1.0 | 2.4GHz | 100mW |
| Transmitter Module(SRD) | 2005.11 | 13.56MHz | 0.2nW |

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 and Part 18 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
- The use of a non-shielded interface cable with the referenced device is prohibited.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT NOTE:

Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 and Part 18 of the FCC Rules.

*Only when ZF-7100 is installed to this equipment.

These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications.

Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

Industry Canada statement:

This device contains licence-exempt transmitter(s) / receiver(s) that complies with Innovation, Science and Economic Development Canada's licence-exempt RSS (s). Operation is subject to the following two conditions:

(1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other transmitter.

Industry Canada ICES-003 Compliance Label: CAN ICES-3B/NMB-3B

* This machine complies with CAN ICES-3 A/NMB-3 A only when ZF-7100 is installed.

* The above statements are valid only in the United States of America and Canada.

Warning — Operation of this equipment in a residential environment could cause radio interference.(Only when ZF-7100 is installed.)

* The above statements are valid only in the EU Countries. The end-product must bear a label in a visible area with the following:

NOTE — Use shielded interface cables. "Contains FCC ID: E52C2GA1485, IC: 1059B-C2GA1485".

Caution:

The device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems;

Operations in the 5.25-5.35GHz band are restricted to indoor usage only.

Radiation Exposure Statement:

This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

* These above statements are valid in the United States of America, Canada and EU.

For Singapore (IB-37)

Complies with
IMDA Standards
DB01846

For Brazil

IB-37 e IB-38

18780-20-09076
