**Change Of FCC Identifier In Accordance With FCC Rule & Regulations Part 2.933
Kirk 2.4GHz Equipment To Multitone**

Dear Sirs,

We wish to make application for the certification a product, originally submitted by ourselves on behalf of Kirk of Denmark, to now also be certified under the Multitone name and FCC Identifier.

The Form 731 and associated supporting exhibits in accordance with FCC R & R Part 2.933, have been compiled and submitted and are as follows:-

2.4GHz Cordless Communication System Base Station:- (a) statement in accordance with para. (b); photograph showing general view of equipment and equipment/packaging labelling information. Equipment labels to be positioned on the rear cover of the unit.

Submission of monies for this application, has been made to the Mellon Bank, with accompanying copy of FCC form 159.

Our primary Agents for this product in the U.S., are:-

Turn-key Technologies Inc. (T.T.I.)
2500 Main Street Extension,
Suite 10,
Sayerville
New Jersey 08872
Tel: 1-732-553-9100

Multitone Electronics plc
Suite 119,
6136 Barfield Road,
Atlanta
GA 30328
Tel: 404 255 8398

If you have any questions relating to this submission, please do not hesitate to contact me.

Yours sincerely,

B.R. Merchant,
Principal Approvals Engineer,
Multitone Electronics plc
