**Change Of FCC Identifier In Accordance With FCC Rule & Regulations Part 2.933  
Kirk 2.4GHz Equipment To Multitone**

Dear Sirs,

We wish to make application for a selection of products, originally submitted for certification by Kirk of Denmark, to also be certified under the Multitone name and FCC Identifier.

The Form 731 and associated supporting exhibits in accordance with FCC R & R Part 2.933, have been compiled and submitted for each individual equipment and are as follows:-

**Handset**:- statement in accordance with para. (b); photograph showing general view of handset + base/charger unit; photograph showing labelling of handset;

**Base Station**:- statement in accordance with para. (b); photograph showing labelling of equipment;

**Repeater**:- statement in accordance with para. (b); photograph showing labelling of equipment.

Submission of monies for each application have been made to the Mellon Bank, with accompanying copies of FCC form 159.

Our primary Agent for this product in the U.S., is:-

Turn-key Technologies Inc. (T.T.I.)  
10 Parsonage Road,  
Edison,  
New Jersey 08837  
Tel: 1-732-906-0600

If you have any questions relating to this submission, please do not hesitate to contact me.

Yours sincerely,

B.R.Merchant,  
Principal Approvals Engineer,  
Multitone Electronics plc
