Attention: Mr. Frank Coperich

Re: Requested Items for FCC ID: E9698108 (EA91635) [Correspondence ID: 4451]

Mr. Coperich,

Per your email request and our conversation last week, please find enclosed the responses to the items addressed.

The ERP data (Item 1) and measurement are submitted as "ERP.doc".

Items 2 and 3 were remiss due to the fact that half of the test report was not transferred during electronic transmission. I am submitting it to the filing as "2 nd\_half\_test.doc".

Regarding Item 2, this particular product has already been tested by Greg Czumak at the OET labs and was found to pass the occupied BW requirements using peak readings. We are aware of the issue regarding using video averaging in occupied BW measurements and will submit peak measurements in all subsequent filings.

I am waiting on the SAR data report from the RF Exposure lab that we use and expect to have it by early next week. I will forward to you as soon as I get it from them (the engineer that worked on our product has been out of the labs).

Thank you very much for your assistance in this matter!

Regards,

William M. Elliott (Mac)  
Compliance Engineer
