Subject: Attestation of voice call implementation

FCC ID: EF4-UL-150

IC: 1078A-UL150

Dear Examiner,

We here by attest that the voice prompt implementation as outline below:

An audio prompt will be automatically played to the users during call set up with the following message:

“Calling your response team now. Please hold the device and position the microphone near your mouth to complete your call.”

After the call setup, the response team will answer the user’s call and provide necessary assistance.

Sincerely,

---

Josh Hansen
