Job Number	ITRM0160
Model	CN3
FCC ID	EHA-06CN3
Agent	Northwest EMC, Inc.
Approval Type	Original
Equipment Class	DTS Digital Transmission System
Rule Part	15.247DSSS

Overview

This application is for the composite certification of Intermec's Stretch CN3 handheld computer, FCC ID: EHA-06CN3. It is a composite device that contains an 802.11(b)/(g) – Bluetooth combo radio, Model DHIB. The CN3, that the radio is installed in, has a longer keypad than previous CN3s.

Each radio uses its own RF path and antenna. The antennas will be internal to the CN3 and not user accessible, thus satisfying the requirements of 47 CFR 15.203. A SAR report has been provided to show compliance with the RF Exposure requirements. Please note, the FCC ID of the SAR report is different than that of this application. Intermec is pursuing several different radio configurations in the CN3 at the same time. FCC ID EHA-08CN3 (of the SAR report) is a CN3 with both the DHIB radio of this application and an additional radio.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
