Agent	
Approval Type	Class II Permissive Change
Equipment Class	PCE Part 24, Licensed Portable transmitter held to ear PCS Part 22, Licensed radio held to ear NII Unlicensed National Information Infrastructure DTS Digital Transmission System
Rule Part	22H, 24E, 15C, 15E

Overview

This application is for a class 2 permissive change to qualify FCC ID: EHA-1000CP01CX2 with a re-positioning of the bar code scanner in the hand-held computer. The bar code scanner has been positioned so that it points straight out the end of the computer instead of tilting downward. This re-positioning enables the device to be used in a wrist holster for hands free bar code reading.

The model number for the new configuration is 1000CP03C.

None of the radios nor antennas in the device have been changed and there are no other mechanical changes. SAR testing was completed to qualify the new body worn configuration.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
