Application:

Intermec Technologies Corporation, 6001 36th Ave W, Everett WA, 98203 herein submits a Class II Permissive Change request for a Frequency Hopping Spread Spectrum Transceiver FCC ID: EHARFID915IM5. The addition of antennas to this transmitter requires reporting of new data per FCC rules. The data within shows the transmitter continues to comply with FCC rules. Included is RF exposure data to support the continued sales of this radio.

Description:

This equipment is a FHSS radio module, which operates in the 902 - 928 MHz band. The radio operates as a 1-watt transceiver used to read and write passive RFID tags.

Please contact me by telephone at (319) 846-2415 or by e-mail (Dave.Fry@Intermec.com) if there are questions or additional information needed concerning this attestation.

Sincerely,

A handwritten signature in black ink, appearing to read "Dave Fry".
