

Attestation of limited operation

Date: Sept 14, 2012

RE: Black Box FCC application for EHX-LWN602WA

To whom it may concern:

Although the RF exposure report provides MPE calculations in the UNII bands, our product will be sold with these bands permanently disabled. No means will be provided that will allow these bands to be enabled.

Sincerely,

A handwritten signature in cursive script, reading "Eric E. Farkas".
