1435 Oakland Mills Road  
Columbia, MD 21046

To whom it may concern:

This is an application for a Class 2 Permissive Change to comply with new U-NII rules requirements.

This device with FCC ID: EJE-WB0091 integrates a WLAN/BT module 7265NGW.

There are no hardware or antenna or power changes to this product. An attestation that the device is applying under 15.407(b) (4) (ii) and that the emission limits comply with Section 15.247(d) for all antenna configurations is made. All product details and test data submitted with original application is still applicable and valid for this C2PC.

The antenna gain is less than 10 dBi as detailed below:

Antenna information	Peak gain w/ cable loss (dBi)			
Type	2.4GHz	5.2GHz	5.5GHz	5.8GHz
PIFA	0.97	1.58	1.58	1.91

Sincerely,

Tsuyoshi Uchihara
