

Appendix A

Non-Conformities for US Radio Equipment Authorization

Non-Conformities FCC ID: EO924GZB (CKC CS Ref # E09-000001-FCC-01)

The items listed below represent requests for information following review of this application for certification under United States (FCC) regulations. Further question may arise pending review of responses to these items.

OK	ID	#	Non-Conformity or Comment	Submitted Response	Respondent / Date of Response
X	C	1	The file that was uploaded for the Internal Photos was from a file format that is not accepted. Please Provide Internal photos in a file format that is acceptable.	New File in the proper format uploaded.	Jay Holcomb 1/19/09
X	C	2	The file that was uploaded for the Operational Description was from a file format that is not accepted. Please Provide Operational Description in a file format that is acceptable.	New File in the proper format uploaded.	Jay Holcomb 1/19/09
X	C	3	There is a note that you would possibly like to try for Confidentiality on Internal Photos. Would you like to try to hold the Internal photos Confidential? Note: This will require a request to be sent to the FCC for approval of Confidentiality of the Internal Photos.	It is okay to not to have the internal photos held in confidence.	Jay Holcomb 1/28/09
X	TL	4	Test report " fcc-2400-002-001_24gzb15 247fcc-ic report" : Page 4, 16, 18, 20. The calibration date were over due for HP8593E, PAM 126, E7405A. Please provide a updated equipment list with valid calibration date	New Report Uploaded.	Jay Holcomb 1/28/09
X	TL	5	The radiated and conducted spurious emission was perform from 9kHz-26GHz, however there is no indication of appropriate RBW and detector function being employed. Please provide a revised test report	New Report Uploaded. On the page for radiated, it refers to appendix A and B and appendix A is direct from the FCC with RBW and detector function stated. 1/28/09: Appendix A and B indicated RBW setting to be used.	Jay Holcomb 1/28/09
X	TL	6	KDB 558074, PSD option 1 has a sweep time requirement of "sweep= (SPAN/3 kHz)" . Page 10 and 11 of the test report indicates a sweep time of 100mS which does not meet the sweep time requirement for a span of 300kHz. Please provide a revised test report with correct sweep time	New Report Uploaded. 1/28/09 : sweep time is now 100sec.	Jay Holcomb 1/28/09

The items indicated above must be submitted before processing can continue on the referenced application. Failure to provide the requested information within 60 days may result in application dismissal pursuant to Section 2.917(c) and forfeiture of the filing fee pursuant to Section 1.1106.

How to read the table:

OK column indicates closure by CKC CS.

ID column is for use with Agents to assist in identifying the probable source for closure.

A - Application issue

TL - Test lab issue

C - Client issue

R - Retesting may be necessary

column indicates unique or separate non-conformity items (note some items may be related).

Non-Conformity or Comment column indicates the evaluators specific question or comment.

Submitted response column indicates the response or a summary of the response provided.

Respondent / Date of Response column indicates the responding party or agent and the date of the response was either received or logged.
