Subject: Professional Installation
FCC ID: E09DCU5310C, IC: 864A-DCU5310C

The following items justify professional installation in order to support any function that requires the use of the device's part 15 transmitter:

The device cannot be sold retail to the general public or by mail order. It must be sold to dealers.

Only utilities will purchase this device. Distribution is controlled through Itron's distribution.

Installation must be controlled.

All part 15 transmitter functions is controlled by Itron's software by default. The end user will have to go through proper training in order to enable these functions.

Installed by licensed professionals

Installation requires special training

Itron will provide training in order to fulfill this requirement. As part of this training, installers will be instructed to only use the antenna model that is provided with the device. Training will also be provided to teach the end user how to enable any features that require part 15 transmitter functionality.

The intended use is generally not for the general public. It is generally for industry/commercial use.

This device is used to communicate with utility meters. Only utility employees will use this device.

Sincerely,

A handwritten signature in black ink that reads "Jay R. Holcomb".
