Re: Request of Confidentiality

Pursuant to Sections 0.457(d)(1)(ii) and 0.459 of the Commission's Rules, the Applicant Guidant Corporation, a wholly owned subsidiary of Boston Scientific Corporation doing business as Boston Scientific Cardiac Rhythm Management, located at 4100 Hamline Avenue North, St. Paul, MN 55112-5798, hereby requests confidential treatment of all the information accompanying this application as outlined below until July 21<sup>st</sup>, 2008:

- UHF Schematics.pdf
- UHF Frequency Block Diagram.pdf
- Operational Description.pdf
- Internal Photos.pdf
- Antenna Information.pdf
- Correspondence Response\_2.pdf

The above materials contain trade secrets and proprietary information not customarily released to the public. The public disclosure of these matters may be harmful to the Applicant and provide unjustified benefits to its competitors.

To further justify inclusion of the "Internal Photos.pdf" and "Antenna Information.pdf" documents, it should be pointed out that the COGNIS 100-D/TELIGEN 100 device is sealed (welded shut) and cannot be opened for inspection without extraordinary effort that would likely destroy the device and its layout. In addition, the device is not available to the public but it is sold only by prescription pursuant to strict FDA controls. The disclosure of the internal layout and component would provide proprietary information to the Applicant's competitors which would harm the Applicant in the market. If long term confidentiality is not granted, we request short term confidentiality under Public Notice DA 04-1705.

The Applicant understands that pursuant to Rule 0.457 (d)(1)(ii), disclosure of this Application and all accompanying documentation will not be made before the date of the Grant of this Application. Boston Scientific Corporation is requesting the actual grant of equipment authorization to be deferred until July 21<sup>st</sup>, 2008, or alternatively, to an earlier date to be specified by Boston Scientific Corporation.

Sincerely,

---
