Subject: Correspondance Reference Number: **8662**  
FCC ID: **EV9N2X53S116B**  
731 Confirmation #: **EA94738**

Ms. Elliott,

I apologize for just now getting back to you on the above-mentioned correspondence letter. The client has made several modifications to EUT and the plan was to submit a replacement package with all the new data and technical report. Included in the "new" submittal package would be the ID Label as well as the location. Because the enclosure was to change the actual location was not yet defined. I was waiting to complete the new package. As far as the schematics, block diagrams and users manual the same thing is applicable. Please excuse my unorthodox approach but the replacement package will be submitted at the same time as this response.

There was an error when submitting the initial 731 form with reference to the FCC ID number and at this time I would like to request that the 731 form be changed to the correct text and the entire application be updated with the following:

INCORRECT FCC ID NUMBER: **EV9N2X53S116B**  
CORRECT FCC ID NUMBER: **EV9N2X5-3S1-16B**

Please note the only difference is the addition of the dashes... I've included a copy of the LABEL in an attached file titled "Labels".

Please refer to the newly filed information packet for the Schematics, Blk. Diagrams and the replacement Users Manual located in APPENDIX J, titled Confidential Information.

Again I apologize for any inconvenience or delays this may have caused. If there is anything else I need to do to correct this problem please do not hesitate to contact me at 408/747-1490 or by email at: chip@eclabs.com

Sincerely,

Chip Matheny  
Chief Technical Officer
