Greg,

Please find in the attached files, exhibits and documentation for the Wireless, Inc. **N2-X Ethernet Extender Bridge** product. These are the remaining documents which did not get uploaded successfully yesterday, 9/30/99. There will be two more attachments arriving later today with reference to the spec sheets for the antennas being submitted for acceptance. (Flat Panel series of antennas). They were scanned and I just couldn't seem to locate them on our server so I will have to wait for that person to get in and locate them so that they can be forwarded as soon as possible.

We were having some problems with some of the files so I am in the process of sorting through the 5.7 material so to make the uploading a little less time consuming. You should expect all of that today as well.

Hope all is well... I just thought I'd give you a heads up.  
Let me know if there's anything else I need to provide to you...for this submittal.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Chip Matheny'.

Chip Matheny
