Ref: FCC Class II Permissive change for FCC ID: **EW4DWMW091**

Original Grant Date: 08/30/2012

Applicant: MITSUMI ELECTRIC CO., LTD.

Dear Examiner,

This is to request a Class II permissive change for FCC ID: **EW4DWMW091**, originally granted on 08/30/2012

The major change filed under this application is:

The granted module built in to a Pad Device with same type antenna but lower gain which product information as shown below :

Portable Computer

1.Product name

2.Brand name : DELL

3.Model name : T05G

This is to justify that MITSUMI ELECTRIC CO., LTD.

will be installing the identical approved 802.11a/b/g/n Wireless LAN + Bluetooth module Card, Model Name:DWM-W091 in a different portable host.

We have done a SAR evaluation for this new portable host and are submitting for a Class II Permissive Change filing. There is no change on the module hardware and the antennas used in this portable host is the same antenna type as the previous with less gain by comparing to the certified antennas included in the original modular approval, and output power remains unchanged. Therefore EMC tests are not performed

If you have any questions regarding this application, pls feel free to contact me.

Sincerely Yours,

---

Masashi Tsuchida
