## Purpose of Change

Dear Sir/Madam:

**Re: Application for a Permissive Change Filing with FCC ID: EW780-0144-00**

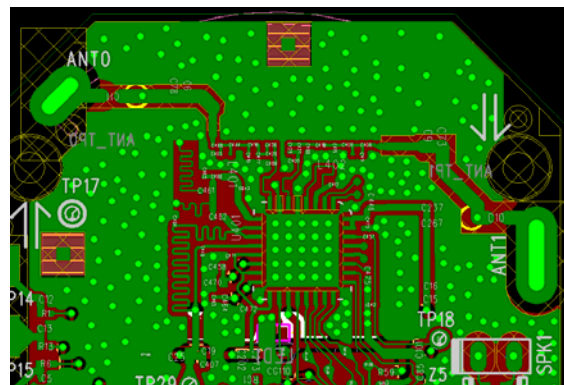

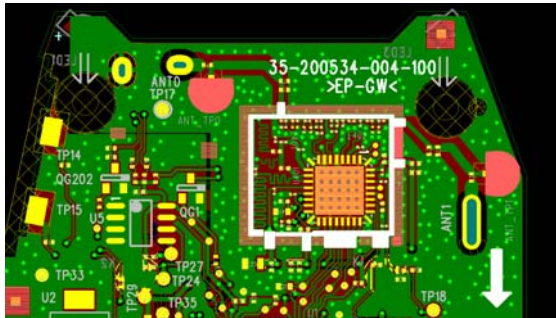

The purpose of this document is to describe all the changes that are made on **baby Unit** to the new designed family models **DM225 BU** from the original model **DM223 BU** in order to meet the requirements.

**Changes of Baby Unit from reference model to the new designed model:**

- **Non-RF circuit and its layout**
- **RF matching circuit and its layout**
- **Antenna size and location**
- **The no. of the antenna—DM223 BU has 2 antennas while DM226 BU has one only;**  
In the original model, the two antenna will not do the transmit/receive at the same time but with the antenna diversity that it will select the better antenna to the transmit/receive.
- **External appearance**

DM223 BU RF layout (35-200534-004-100)

DM226 BU RF layout (35-200800-000-100)

**Similarities of Baby Unit between the original model to the new designed model:**

- RF IC/circuit/layout
- Antenna type and gain
- No change in radio parameters has occurred.
- RF conducted and radiated emission level is similar.
