

EXHIBIT C - EUT INTERNAL PHOTOGRAPHS

A close-up photograph of a green printed circuit board (PCB) populated with various electronic components. A red arrow points to a small, rectangular, silver-colored component, likely a surface-mount device (SMD), which is mounted on the PCB. Other visible components include a large black integrated circuit (IC), a silver electrolytic capacitor, and several smaller resistors and capacitors. The PCB is set against a blue, textured background.

Battery
