Purpose of Change

Dear Sir/Madam:

Re: Application for a Permissive Change Filing with FCC ID: EW780-6948-00 and FCC Registration No.: US:EW7W401B80-694800

The purpose of this document is to describe all the changes on **Base Unit** that are made to the VTECH new designed family models **EL52xy9** from the previous model **VTech CS6229** in order to meet the new enclosure and features.

Changes from the existing CS6229 to the new designed model EL52xy9:

- Baseband circuits and PCB layouts of base have some minor changes;
- The outlook of base is not same as previous models
- Number of Base antenna is changed from two antennas to one antenna only
- Base antenna is changed from Rod-typed to Inverted-F
- Supplier of the Base adaptor changed from Sunstrong (SIL) to Ten Pao

Similarities between CS6229 and the new designed models EL52xy9:

- Same RF chip set and circuitry in BS;
- Same frequency band & channels
- The power supply scheme and the DC current consumption are very similar
- Same line interface circuit and speech modules

Sincerely,

Samson Man
Approbation Supervisor
