## What's in the box

1 set for DM1211; 2 sets for DM1211-2

The parent unit runs on rechargeable battery or AC power. To continuously monitor your baby, make sure you use both battery and AC power at the same time. With the battery alone, the parent unit can cordlessly run for a short time

Install the battery

### **⊘**NOTES

Use only the battery supplied with this product.

. If the parent unit will not be used for a long time disconnect and remove the battery to prevent

Install the battery as shown below

**P**NOTE

 Make sure the THIS SIDE UP is facing up while inserting the battery

## Replace the battery

To replace the battery, unplug the battery connector from the socket, and then pull the battery out of the battery compartment. Follow the steps above to install the battery.

# Connect and charge the

### **⊘**NOTES

- Use only the power adapters supplied with this product.
- · Make sure the electrical outlets are not controlled
- The power adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet
- Make sure the parent unit, the baby unit and the power adapter cords are out of reach of children

## Connect the baby monitor

The link between the parent

### Charge the parent unit battery When you have connected the parent unit and

installed its battery for the first time, it powers **⊘**NOTE on automatically. The battery icon indicates the battery status (see the following table).

Action

Battery Battery

- The parent unit battery is fully charged after 11 hours of continuous charging
- It takes longer to charge the battery when the parent unit is turned on. To shorten the charging time, turn the parent unit off while charging
- The standby time varies depending on the sensitivity level you set, your actual use, and the age of the battery.

indicators	status	
The battery icon is off.	No battery is installed but operates using AC power.	Install the parent unit battery. Charge without interruption (at least 30 minutes).
The screen displays LOW BATTERY and . The Ight flashes.	The battery has very little charge and may be used for only a short time.	Charge without interruption (about 30 minutes).
The battery icon becomes solid	The battery is fully charged.	To keep the battery charged, connect it to power socket when not in use.

## Before use

This baby monitor is intended as an aid. It is not a substitute for proper adult supervision, and should not be used as such

## Test your audio monitor

You may test the baby monitor before initial use and at regular times thereafter.

## ()CAUTION

For hearing protection, make sure the parent unit is more than 6.5 feet (2 meters) away from the baby unit. If you hear any high-pitched noise, move the parent unit further until the noise stops. You can also press VOL on the parent unit to lower or mute the

- 1. Make sure your baby unit and parent unit are
- 2. Speak towards the microphone of the baby unit. You will hear the sound at the parent unit, and see the visual sound indicators light up.

## $\boldsymbol{\mathscr{G}}$ NOTE

When the parent unit displays NOT LINKED and If flashes, move the parent unit closer to the baby 2 meters). You can also check if the baby monitor is connected to a live power socket and switched

## 

Increase the speaker volume of the parent unit if you cannot hear the sounds transmitted from the baby unit.

()CAUTION

baby's crib or playpen.

Positioning the baby monitor

Keep the baby unit out of the reach of the baby.

Never place or mount the baby unit inside the

### Mises en garde

- 1. Utilisez et entreposez le produit à une température entre 0° C (32°F) et 40°C (104° F).
- 2. N'exposez pas cet appareil à des froids ou des chaleurs extrêmes, ainsi qu'à la lumière directe du soleil. Ne l'installez pas près d'une source de
- 3. Le bloc-piles ne doit pas être exposé à la chaleur excessive telle que la lumière du soleil ou au feu.
- 4. Assurez-vous que le moniteur et le cordon de l'adaptateur sont toujours hors de portée des enfants, à au moins 1 mètre (3 pieds) de l'enfant ou du berceau pour éviter tout risque de strangulation. 5. Ne jamais placer le moniteur à l'intérieur du
- berceau ou du parc de bébé. Ne jamais couvrir le moniteur ou l'unité (s) portative avec un article tel une serviette ou une couverture. 6. D'autres équipements électroniques peuvent
- produire des interférences sur votre moniteur vidéo et audio. Tentez d'installer votre moniteur vidéo ou audio à l'écart des appareils électroniques tels que des routeurs sans fil, radios, téléphones cellulaires, interphones, moniteurs, téléphones, ordinateurs personnels, électroménagers et téléphones sans

# Stimulateurs cardiaques implantés dans

Les simulateurs cardiaques (ne s'applique qu'aux dispositifs numériques sans fil): L'organisme 'Wireless Technology Research, LLC (WTR)', une firme de recherche indépendante, a mené une évaluation pluridisciplinaire des interférences entre les téléphones sans fil portatifs et les stimulateurs cardiaques implantés dans l'organisme. Appuyée par l'Administration des ents et drogues (FDA) des États-Unis, la firme WTR recommande aux médecins:

### Avis aux détenteurs de stimulateurs cardiaques

- Vous devriez maintenir les dispositifs sans fil à au moins six pouces du simulateur cardiaque.
- Ils ne doivent PAS placer le téléphone sans fil directement sur le stimulateur cardiaque, tel que dans une poche de chemise, lorsque celui-ci est en marche.

L'étude effectuée par l'organisme WRS n'a pas identifié de risque pour les détenteurs de simulateurs cardiaques causés par les gens qui utilisent dispositifs sans fil à proximité de ceux-ci

### Champs électromagnétiques (EMF)

Ce produit de VTech est conforme à toutes les normes se rapportant aux champs électromagnétiques (EMF) standard. Si vous le manipulez correctement en suivant les instructions de ce guide, son utilisation sera sécuritaire pendant de nombreuses années. selon les meilleures évidences scientifiques dont nous disposons aujourd'hui.
