

Operational Description

Section 1: Setting Up the system

1.1 Plug in the keyboard and mouse

Keyboard and mouse connectors are on the rear panel.

Connect the keyboard to the keyboard connector colored blue.

Connect the mouse to the mouse connector colored green.

1.2 Attach the power cord

This Computer System uses both 110/220V power range without any setting action.

Just plug the power cord into your PC and connect the cord to the grounded outlet.

1.3 Connecting the Modem

Connect the phone and telephone kine to the rear of the computer to use the modem feature.

Connect the cord from the telephone to the upper jack and connect the cord from the wall to the lower jack.

Section 2: Mainboard BIOS Setup

The Mainboard BIOS acts as the bridge between your Hardware(CPU, Disk Drives, Video, etc) and Operating System Software. The BIOS Setup is where many hardware Configuration options are set and stored. This configuration information will remain in the BIOS unit it is changed, or cleared by removing the battery for a while then reinstalling it or by setting the Clear CMOS jumper if there is one..

2.1 Using Setup

In general, you use the arrow keys to the highlight items, **<Enter>** to select or display the possible selections, **<Page Up>** and **<Page Down>** keys to change entries, **<F1>** for general help and **<Esc>** to quit.

2.2 Getting Help

Pressing **<F1>** will display a help window that describes the appropriate keys to use.

Pressing **<Enter>** will display a small help window that describes the possible selections For the highlighted item. To exit the Help Window press **<Esc>**.

A brief description of some highlighted selection may appear at the right frame(titled Item Help) of the setup screen.

2.3 A Final Note about Setup

Not all systems have the same Setup. While the basic look and function of the Setup Program remains the same for all systems, individual motherboard and chipset Combinations require custom configurations. For example, you may find that your Setup main menu has a different number of entries from the main menu displayed in this manual. These are simply features not supported(or not user configurable) on your system.
