

RE: Equipment Authorization Line Entries.

The frequency range on last line entry on the previous equipment authorization was adjusted according to PCII letter. This grant adds a new modulation type and frequency range on the second to last line.

Note Software distribution for non-SDR applied in accordance with KDB 594280. PAG reuse employed regarding KDB 418845 and KDB 585825; no changes to previously approved software distribution scheme.

Respectfully Submitted,
