RE: HY1874, HY1875, HY1876, HY1877, HY1878, HY1879, HY1880, HY1881,  
HY1882

This family of modules share a common PCB and plastic enclosure. There are  
some differences in schematic and BOM. However, none of these differences are  
related to the radio or antenna designs.

Sincerely,

Minas Minassian  
RF Engineering Manager
