

"Revised Operational Frequency"

February 5, 2001

Federal Communications Commission
Laboratory Division
7435 Oakland Mills Drive
Columbia, MD 21046

Re: F3JMX-1111 EA98047

To Whom It May Concern,

This letter is to certify that production units of the above referenced model will be adjusted so that the conducted R.F. Power will not exceed the following maximum limits.

At the Highest Operational frequency +24.3dBm
At the Mid Operational frequency +26.1dBm
At the Lowest Operational frequency +26.5dBm

The factory has been informed of these limits.

If you require additional information, please contact me at 816-891-9119 ext. 721.

Sincerely,

Roger R. Bisby
Staff Engineer
