To Whom It May Concern

Subject: DSC Alarm Communicators FCC/IC Limited Modular Approval  
Models: TL255GS-SM-NA, TL255GS-NA, GS2055-SM-NA, GS2055-NA  
FCC ID: F5311GS255SM  
IC: 160A-GS255SM

This is to confirm that the subject models are intended for use only as subassemblies within a DSC alarm system model SCW9055(D)(G)(I)(-SM)-433 or SCW9057(D)(G)(I)(-SM)-433 having the FCC ID: F53119057G and IC No. 160A-9057G. This communicator subassembly is mounted inside the host alarm control panel in order to provide alternate communication means for alarm events that need to be sent to the supervising station of the monitoring company. The alarm communication module will always be used inside these DSC control panels models and the installation is controlled by DSC during manufacturing process. The host alarm control panel has its own FCC/IC registration number and the marking applied to the final product also identifies the communication module installed inside the alarm control panel's enclosure.

Should you have additional questions regarding this matter please do not hesitate to contact me directly.

Your truly,

A handwritten signature in black ink, appearing to read 'Dan Nita', is written over a light blue horizontal line.
